5 STEPS

DIY RAMP EVALUATION

There's no need to delay your Freedom Now any longer. The National Ramp Dealer Network is here to provide you with a ramp for your needs even during the COVID-19 pandemic. Answer these questions to get started on a socially distant ramp quote.

1

How many steps from your front walk to the landing or porch?

2

Is there an additional step up to your door from the landing or porch?

3

Do you have a path from your front steps to the driveway? Is this path straight from the door to the driveway, or does it turn?

4

Are there additional steps in the path going down to the driveway? If yes - how many?

5

Please submit a photo of the area. Including the door, steps, where you feel ramp would fit and include a visible object (waste bin/chair) in the photo where you want the ramp to end.
